

PCD Grinding Head Road Line Marking Removal Machine with 35HP Air-Cooling Gasoline Engine and Suction

Our Product Introduction

for more products please visit us on wagetraffic.com

Basic Information

- Place of Origin: China
- Brand Name: WAGE
- Certification: EMS OHSMS
- Model Number: HG 1035
- Minimum Order Quantity: 1 set
- Price: 12000-12500USD per set
- Packaging Details: Composite board box
- Delivery Time: 1 to 3 weeks
- Payment Terms: L/C, T/T, Western Union, MoneyGram

Product Specification

- Engine: 35P Air-cooling Gasoline Engine
- Grinding Head: PCD
- Grinding Width: 250mm Max
- Grinding Depth: 1-5mm
- Highlight: **Suction Road Marking Removal Machine, 35HP Road Marking Removal Machine**

Product Description

Hg 1035 Booster Pushing Road Marking Removal Machine PCD Grinding

HG 1035 booster pushing Road marking removal quipment PCD grinding with suction

Mechanical type pavement marking remover

The mechanical type pavement marking remover uses the gasoline engine to drive the rotation of grind head, so that the grinding head rub against the convex portion of the road surface, thereby achieve the purpose of cleaning the old road line. The mechanical type pavement marking removal machine is easy to use, fast in construction, easy to maintain, and has good clearance for repeatedly applied thermoplastic marking lines, oscillating marking lines, cold paint marking lines, and even hard-wearing two-component marking lines. It integrates high efficiency, high quality and multi-function in one during the construction process.

Features

- Easy-to-use Depth Control System provides precise cutting depth
- Vibration Reduction Technology provides up to 4X less vibration than the competition
- provides ultimate flexibility and allows deck to "float" on uneven surfaces

Parameter:

Model	HG-1035
Engine	35P air-cooling gasoline engine
Grinding head	PCD
Grinding width	250mm max
Grinding depth	1-5mm
With	Heavy duty air filter,Front steering gear

Size (L*W*H)	1700*700*1100mm
Weight	230kg
